

What We Do

Web Services

- Web Design
- Domain Name Registration
- Web Hosting
- Web Site Maintenance
- Web Promotion using SEO

Web Design

We will work with you to understand the needs of your organisation and to design a web site meeting your exact requirements. As we progress with your web site design, you will be able to check its progress online.

The cost of a web site will vary depending on content, although the basic cost starts at a £75 design charge and £30 per page. This is only an approximate guide price and we will need to discuss your exact requirements to provide an exact price.

E-commerce sites will need to be quoted for on a case by case basis, please contact us for more information.

Domain Name Registration

Your web site will require a domain name, (eg www.mywebsite.co.uk) which we can easily register for you if you wish.

Web Hosting

You will require some form of web hosting in order to store and then display your finished web site on the internet. We are ideally placed to host your web site and provide this for £80 per year for up to 3GB of data transfer per month.

Web Site Maintenance

We can provide a copy of your web site for you so you can update it yourself if you wish. Alternatively, we can take care of the updates for you. All web site maintenance is charged at a rate of £22.50 per hour.

Web Promotion

An important feature we include is the optimising of your web pages for the search engines. This is done through correct use of page titles, keywords, Meta tags and links to your web site. You may find you can increase your traffic by using an online advertising scheme with one of the top search engines. I can arrange this for you and work will be charged at the standard rate of £22.50 per hour.
